

Summative Assignment: IPT & Metacognition

Overview

The Challenge

- Work collaboratively with peers in your specialization group (Elementary, Secondary, Music Education, etc.).
 - Design a **lesson plan** aimed at students you will likely teach in your future career.
 - Present your lesson plan to classmates, who will provide constructive feedback.
-

What to Include in Your Lesson Plan

(See separate document for the lesson plan template)

1. **Developmentally Appropriate Content** — Tailor explanations, examples, and visuals to your chosen age group.
 2. **Active Learning** — Include at least one interactive activity that models key assumptions of Information Processing Theory (IPT) and metacognition.
 3. **Clarity & Engagement** — Keep your lesson organized, clear, and engaging for your audience.
-

Peer Feedback

Please use these questions to guide your feedback:

1. What was one thing you learned or found interesting from this lesson?
2. Was there any part of the lesson that confused you or was difficult to understand?
3. What questions do you have about this lesson?
4. If you were the teacher, what would you add, change, or do differently?
